Office Address: FSB 106 or WebEx
Office Hours: by appointment - don’t hesitate, I love chatting one-on-one

Course description and objectives:

This course covers professional, ethical, and career development issues related to social science fields such as human development and family sciences. Students are expected to attend course having read the assigned readings and ready for engaged discussion. The course will cover both conceptual ideas related to ethics, and practical tools for professional and career development. By the end of the semester, students should be able to:

1. Describe general ethical principles that guide the professional and scholarly behavior of developmental and social scientists
2. Negotiate ethical and fair research collaborations and collaborative writing projects, including those with mentors
3. Navigate responsible reporting of research and peer review
4. Identify career goals, and/or how to develop career goals, and the tools needed to obtain these goals
5. Create a clear CV or resume, research statement, and professional website
6. Recognize the requirements for a strong job talk, interview, and grant proposal (we will not be able to spend enough time on these topics that you will come out fully developed in these areas)
7. Evaluate the boundaries, including fuzzy boundaries, of academic freedom
8. Apply a social justice perspective to research and teaching

**Course requirements:**
1. **Attendance/discussion:** Students should attend class regularly, and be active participants in class. Class participation involves coming prepared, asking thoughtful questions, contributing to other students’ ideas, and being respectful of classmates. Pay attention to what is going on in the news around academia, professional development, and careers – if you see something relevant, bring it to class for our discussion.

2. **Job postings:** Find 2 or more job listings that you think might fit your career goal. They should not be post doc positions, but long term career goals. Send an email that includes PDFs of the postings, and a document (about 1 page) that addresses why these jobs appeal to you, and what you plan to do between now and graduation to make yourself marketable for these jobs.

3. **Fellowships:** Find 2 (or more) fellowships from the spreadsheet that you could apply to. Email a document (about 1 page) that includes name of the fellowship, link to description, why it seems a good fit for you, and what you would need to do to be competitive for it.

4. **Informational interviews.** Contact two people whose careers match your current potential interests (I recognize these may be vague). Interview these two people (phone/video call highly preferred; email if need be) about what their position entails, and what you should be doing over the next few years to obtain a similar career. Submit a brief write up (use template provided) of what you learned in your interviews. As part of the interview, please ask whether they are willing to provide permission for you to share the information with other UConn students. Please email it to the whole class so we can all learn from each other’s interviews. Keep in mind that (like everyone) they will be busy. They will be more likely to respond if you give them a reasonable amount of time in which to do so. Criteria for interviewees:
   a. Preferably alumni of our program, not already interviewed (talk to me for exceptions)
   b. Graduated 2019 or earlier
   c. Not a post doc
   d. Not UConn faculty
   e. Not someone you already know

5. **5-year plan:** Write a 5-year plan. You can use the template provided, or create your own. Include specific plans around scholarly output, graduate student milestones, teaching, professional service, professional development, and job searches/preparation/planning (as relevant). Your assignment should include a full five years, though you can include the current academic year. I recognize you may not know your plans a few years out, so imagine yourself in your ideal next step after graduate school, and write the plan as though that’s where you land.

6. **CV/resume:** Write a CV or resume. You only have to do one or the other, based on which is a better fit for the types of jobs you anticipate pursuing. There will be examples on HuskyCT. Submit it by email attachment, receive feedback, and submit a revision.

7. **Online presence:** We’ll discuss why you may want to do one or the other (or both!).
   a. **Option A Website:** Create a professional website. It could be in any platform, including through weebly, wordpress, wix, squarespace, google sites or another of your choosing. Send me a link to your website. Think about your audience/career goals when crafting your website. It does not have to be super fancy, but should meet the following goals:
      i. Describe yourself in narrative form
      ii. Summarize your work, much as you would on a CV (or include your CV)
      iii. Include links to relevant other websites
      iv. You are also welcome to, though not required, to include other elements, such as a blog, photos... be creative.
   b. **Option B Twitter:** Create a Twitter account (if you already have one, you will need to screen shot it at the beginning so you can demonstrate growth). Accomplish the following things, and submit screen shots:
      i. Write a thoughtful description, including photo(s).
ii. Follow at least 50 relevant scholars
iii. Retweet at least 10 posts
iv. Write at least 10 new posts on academics (e.g., research, teaching, work/life integration...)
v. Comment on at least 5 others’ posts

8. **Mentoring map**: Complete the NCFDD mentoring map. Submit by email attachment.

9. **Manuscript review**: In addition to writing papers, researchers are involved in the publication process as reviewers, providing constructive feedback and evaluation to other authors. For this course, you will review a manuscript that was recently submitted to the *Journal of Research on Adolescence* — you will serve as a student reviewer and I will serve as the senior reviewer. Submit a brief (about 2 pages) review of the manuscript by email attachment.

10. **Job talk summaries**: Attend two job talks and meet with two job candidates. I will forward you opportunities when they arise. It could be within HDFS or in other departments. If you have time conflicts, you can view the videotaped versions. Within one week of attending the second talk/meeting, submit by email attachment a brief (about 2 pages, double spaced) paper that:
   a. Identifies the two speakers, dates, and titles (can be in the heading)
   b. Compares the relative strengths and weaknesses of the presentations and the candidate during the meeting
   c. Answers the questions:
      i. What did you learn from these 2 talks about what you should and shouldn’t do in job talks?
      ii. What did you learn from these 2 meetings about what you should and shouldn’t do during a job interview?
   *Feel free to refer to points from assigned readings on job talks!

11. **Elevator speech**: Being able to describe yourself succinctly and on the spot is an important skill throughout your career. We will take turns in class presenting ourselves in 1-2 minute informal presentations, which will be videotaped. Then we will watch them and discuss them.

Policies:

For classes that take place over WebEx, I recommend a webcam and, if possible, earbuds or headphones, which make participating in discussion easier (less feedback). I may sometimes record lectures in WebEx if others aren’t able to attend. Please alert me to any concerns about recording so that we may come up with a plan.

Please see the following website for university policies regarding people with disabilities, discrimination harassment, and related interpersonal violence, the student code, and absences from class due to religious observances and extra-curricular activities: http://provost.uconn.edu/syllabi-references/

For the university policy regarding scholarly integrity in graduate and post-doctoral education and research: http://policy.uconn.edu/2014/04/11/policy-on-scholarly-integrity-in-graduate-education-and-research/

The University of Connecticut is committed to protecting the rights of individuals with disabilities and assuring that the learning environment is accessible. If you anticipate or experience physical or academic barriers based on disability or pregnancy, please let me know immediately so that we can discuss options. Students who require accommodations should contact the Center for Students with Disabilities, Wilbur Cross Building Room 204, (860) 486-2020 or http://csd.uconn.edu/

NOTE: This syllabus is a working document and is subject to change. If changes are made, you will receive notice via email. Students are responsible for noting any changes.
*Appreciation to Laurel Joy Gabard-Durnam who curated some of the resources included in this syllabus, and to Lori Skibbe, who shared a copy of her syllabus for a related course.
